OCTOBER 2020

BLOEMFONTEIN, UNIVERSITY OF THE FREE STATE

**The Interacting Microbe**

*We have the pleasure to announce the next South African Society of Microbiology (SASM) conference to be held at the University of the Free State in Bloemfontein during early October 2020. Do not miss this opportunity to present your current research. The theme of the conference will be: "The Interacting Microbe". To encourage collaboration and broaden our perspectives on microbial interactions, we present the following topics to be covered during the conference:*

Microbes interacting with humans and other animals

Microbes interacting with plants

Microbes interacting with each other

Microbes interacting with the built and natural environment

Microbes interacting with food and beverages

Microbes interacting with chemicals

**Organised by the South African Society for Microbiology**

**More information will be available on [www.sasm.org.za](http://www.sasm.org.za) soon.**
